Your Learning Adventure Begins!

***Welcome to the
Certified Digital
Practitioner:
Cybersecurity &
Data Privacy
Programme (CDP:
Cyber).***

Are you ready to become a digital defender in a world full of cyber risks and data breaches? This isn't your typical classroom experience – it's an interactive, hands-on journey into the exciting world of cybersecurity and data privacy. You'll learn how to spot threats, protect sensitive information, and navigate the rules that shape the digital landscape – all while building practical skills, boosting your personal brand, and unlocking career opportunities in one of the fastest-growing fields in tech and compliance.

Your Learning Journey Map

Stage 1: Induction & Portal Power-Up

In this session, we'll:

- Welcome you to the programme
- Show you how to navigate the student portal
- Explain how your modules, assessments, and practical tasks work

All your course content, tools, and progress tracking will be available on the portal.

Stage 2: Build Your Personal Brand

Before you catch criminals, let the world know who you are!

- Create your LinkedIn profile
- Learn to position yourself as an emerging compliance professional
- Tips on personal branding, content creation & growing your network

This is a compulsory session – your digital presence is part of your success

Core Modules:

Learning + Doing = Mastery

Each module includes:

- 1 Gamified eLearning
- 2 Hands-on practicals
- 3 Quizzes and case studies
- 4 Live lectures (on-site and/or online)

Our goal is to help you find your true calling in the cybersecurity field. We are dedicated to help you!

Sholane Sathu
